This alphabetical arrangement of the births, marriages and deaths under the two spellings GATES, GATE was made from the General Index of Connecticut Vital Records and covers entries found in the records of the Town Clerk's offices from the formation of the towns to about 1850.

These entries, based on copies, have not been checked with the original sources and doubtless errors and omissions will be found. It is hoped that corrections and additional data from Bible or Family Records will be given to the Connecticut State Library whenever such are available.
